

## School Profile

## The School and Community

Founded in 1970 with a vision to be one of the best British, international schools in the world, The British School of Brussels (BSB) is a thriving international learning community, with children from the ages of 1-18 years from over 70 different countries. Based in the eastern suburbs of Brussels on a state-of-the-art campus, we offer a high-quality, holistic education to students of all abilities and linguistic backgrounds. Tuition is mainly in English, although bilingual learning is also offered in French, along with support for other mother-tongue languages. The largest student population comes from the UK (30%). Extra-curricular activities are numerous, covering sport, music, drama and much more and there is also a strong pastoral focus in the school. Students are encouraged to develop wider skills beyond the academic, to take part in service learning opportunities and to see themselves as global citizens of the future, able and willing to make a difference in the world.

## Curriculum

The British School of Brussels is made up of two schools: the Primary School - ages 1-11 and the Secondary School - ages 11-18.

All students follow the UK (English) National Curriculum up to age 16. This is enhanced to meet the needs of internationally mobile and expatriate families in Belgium. As well as local families seeking an international education.

Students take the General Certificate of Secondary Education (GCSE) and the International General Certificate of Secondary Education Examinations (IGCSE) at age 16. Students can also take an International BTEC (a vocational qualification awarded by the Business and Technology Education Council in the UK) at Level 2 in Business. We do not offer the Triple Science option but our students are entered for the IGCSE Science (Double Award) or IGCSE Science (Single Award) exam. They are however, taught by subject specialists for each of the components.

They then choose to study for the General Certificate of Education Advanced Level, the International Baccalaureate Diploma, or BTEC Level 3. Some students combine A Levels with Level 3 BTECs, some complete the Extended Diploma. Students study for these in "Post16" – the last two years of education at BSB.

Most students studying A Level and/or BTEC will also complete an EPQ (Extended Project Qualification). The expectation is that students will begin *three* A Levels/Level 3 BTEC and complete them over two years. A small number will begin four. We do not offer AS Levels as a stand-alone qualification.

## Class rank and GPA

The British School of Brussels does not rank or calculate GPA for students. There is no appropriate system that would reflect the grading system of the GCSE and IGCSE, International Baccalaureate, A Levels or BTEC to a GPA. In addition, we have a transitory international population of students, many of whom transfer between different educational and grading systems.

## Academic Calendar

The school year is broken up into three terms: Term 1 which runs from late August or early September until mid-December; Term 2 from early January until late March or early April; and Term 3 from late April to late June or early July.

## Activities and Service

Service learning and enrichment activities are a vital and integral part of school life. Students have an extensive and diverse range of possibilities including sport, drama and music all supported by superb facilities. Sports include rugby, football, netball, tennis, gymnastics, swimming, golf, basketball and hockey. Many students compete successfully in the International Schools Sports Tournaments (ISST). BSB is the only international school in Belgium to have its own 25m indoor swimming, part of an extensive new sports centre which also includes a multi-purpose sports hall, specialist gymnastics space, dance studio and a fitness room. Music and drama opportunities are also exceptional across the age range. Many students also take part in the Duke of Edinburgh Award scheme at all levels. There is an extensive range of CAS activities available and a wide variety of curricular and extra-curricular trips and residential visits. BSB students are actively encouraged to develop leadership and to engage actively, ethically and purposefully with the world at large through such activities as THIMUN (The Hague Model United Nations, TEDxBSB, Fair Trade and a range of environmental projects through our GIN (Global Issues Network) group.
